Conservatory like an Oven?
Fit polycool Stay Cooler in Summer & Warmer in Winter

polycool

EASY FIT - OR WE CAN FIT • 15 Year Guarantee

VISIT www.polycool.co.uk or CALL 01789 766880 for more information

To produce a quotation for your conservatory we require the following information, which can be obtained in 3 simple steps.

1. Exterior Conservatory **SIZE** (At floor level)
2. Conservatory **STYLE**
3. Roof **CHANNEL WIDTH** (from inside the conservatory)

For assistance refer to the self-survey form located at the rear of the brochure, alternatively call us on 01789 766880 or visit www.polycool.co.uk to use our online quote system.

Dear Sir, We feel we must write and thank you for your fast and efficient service and we look forward to seeing it fitted, we will certainly be recommending you to all our neighbours and friends. To order on a Monday and get it on Friday of the same week is what we call excellent service. Many thanks again.

Mrs Yates, Staffs

I am writing to say what a good product Polycool is it's made a big difference in my conservatory since I installed it completely at the beginning of the month and as you know it's been well tested in this extremely Hot weather we are having at the moment, its cool and glare free. I purchased the kit some 18 months/two years ago and have been dubious about how long it would take to install and also the method I did think it would take for ever pushing those strips up so many channels but I was amazed at how easy it actually was.

I would recommend this product to anyone with a conservatory it would save buying blinds. Mine are redundant now! Please use this letter for other interested customers to read. The staff at Polycool are also very helpful if you need encouragement to get going or you see a problem they will help out in every way for it's good stuff. Easy to install all round

Mr Aldridge, Hants

Sir, I am just writing to compliment you on your marvellous product. I fitted the solar inserts with no trouble whatsoever, and was amazed at the difference in its ability to cut down on the heat. My compliments to such a wonderful product. What you said is what I got, a breath of fresh air in this day of mumbo jumbo. It is so good I will be placing another order for my place in Spain.

Mr E Bidwell, Fareham

To Polycool, we feel compelled to drop you a line having recently installed your gold product in the roof of our conservatory. The results are absolutely remarkable; everything you claim about your product is 100% true. We would have no hesitation in recommending your product to anyone. We get quite a fair bit of sun down here in Poole and Polycool has allowed us to use the conservatory throughout the Summer as never before. We remain your satisfied customers.

Mr and Mrs Ness, Poole

Dear Sirs, May I first of all say that from the initial telephone request, to the delivery of the product, it has been a pleasure to deal with your professional company. It is simple to fit, reduces glare and most of all reduces heat build up. Before Polycool mid afternoon temperature 115°F, after Polycool 78°F, which now allows us to use the conservatory in the height of summer, even allows us to watch the TV. A big thank you to all for this fantastic product. If you ever require an ambassador in the Morecombe area do not hesitate to contact me.

Regards Allan Smith, Morecombe

Just a quick message to say how impressed both my wife and I were with the prompt and efficient way that our enquiry and subsequent order were dealt with. When we received our Polycool we set to work on our conservatory. After about 3 hours our small roof was complete. It was as easy as you said.

Most importantly your product performs perfectly. We can actually sit in comfort in our conservatory without the need for large fans to cool the air. Many thanks from a very satisfied customer.

Sean Spicer, Kent

Introduce a friend to Polycool & get a free £20 stores voucher upon their 1st order!!!
terms and conditions apply - please contact polycool for more information

- A 10mm
- B 16mm

3. Roof CHANNEL WIDTH from inside your conservatory - by aligning the arrows displayed on the measuring gauge with the tramlines in your roof, please indicate in the appropriate box your roof channel width. (Widespan roofs do have wider channels - refer to the page 11 examples).

Self Survey form

To obtain a quotation for Polycool on a DIY basis, simply complete the following 3 steps and return...

1. Conservatory STYLE (please tick)

Which of the following conservatory designs is similar to yours. If yours differs please include a sketch or photo.

2. Exterior conservatory SIZE at floor level

The red arrows indicate how to measure the exterior of your conservatory at floor level, if you have a P-shape please measure the 2 sections separately.

Dimension X =

Dimension Y =

Name

Address

Postcode

Tel No.

Email

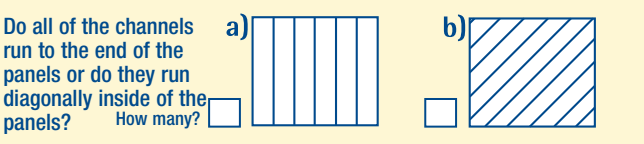

Or you can fax your dimensions to us on 01789 764162
For a verbal quote please call 01789 766880

Complete this section if you require a quotation for our Polycool fitting services

We would appreciate your assistance by completing the following checklist, to help confirm your exact conservatory requirements.

PLEASE CIRCLE CORRECT ANSWER.

Conservatory Checklist	Answer
Is the conservatory a ground level structure?	Yes / No
Can the roof at Gutter level be accessed with a step ladder?	Yes / No
Approximate height of gutter from ground level?
Do you have access to all sides of the conservatory?	Yes / No
If the conservatory sides onto a neighbour – Do you have their permission to use their property to access the obstructed side?	Yes / No
Are there any outside obstructions affecting access to the conservatory? e.g sloping gardens, perimeter/patio walls, ponds etc	Yes / No
Have the end cappings been sealed on to the panels using an adhesive?	Yes / No
Do you have any roof vents, if so how many?
Can all of the channels be accessed from the end of the roof sheet without having to remove the panel?	Yes / No

Please advise the number of panels that are not accessible from the bottom edge of the roof
(Please supply a sketch or photograph)

We will contact you with a quotation for our installation services based on the information you have provided above. If you have any photographs, supporting drawings or additional comments that would be of help to us please include. Fitting Timescales vary on weather conditions, we recommend you contact our sales office who can advise the current leadtime. Payment is required once the installation has been completed, when you will be asked to sign a letter of satisfaction.
